Fiscal Year 2023-24 New Appropriations and Re-Appropriations Listing	403
Detailed Report by Capital Project Number	413

How to Use this Document

The City of Miami's Capital Budget and Multi-year Capital Improvement Plan, also known as the Capital Plan, contains information on how the City plans to invest available resources into key infrastructure, facilities, and systems between October 1, 2024 through September 30, 2030.

The Capital Plan is organized into seven main sections:

- **INTRODUCTORY** – This section describes the purpose of the Capital Plan, describes the development process, and summarizes the criteria that influence projects included in the CIP.
- **FUNDING OVERVIEW** – There are various ways to present the details of the City's capital projects and this section summarizes the details of the reports that are presented in the Capital Plan. The nine (9) types of funding sources are described and summarized in the "*Overview by Funding Source*". The attributes of the project determine which program fund that will be used to classify the project and is displayed in the "*Overview by Program Fund*". The "*Overview by Department*" presents the funded amounts and estimated costs for projects Citywide. The overall funded, partially-funded or unfunded status of the projects are shown in the "*Overview by Funding Status*".
- **HIGHLIGHTS** – During the fiscal year, the Office of Capital Improvements (OCI) and other City departments work together on many types of capital projects. This section describes those projects that are noteworthy because of their magnitude or impact to the community.
- **NEW CAPITAL APPROPRIATIONS** – This section shows new appropriations proposed for FY 2024-25 for various new and existing capital projects across multiple funding sources and departments.
- **CAPITAL PLAN REPORTS** – This section highlights various important elements of the capital projects organized into two CIP reports:
 - *Sources and Estimated Uses by Department*: This report provides the budgeted funding for each project and the respective estimate for how those funds will be spent within the project. The budgeted funds are appropriated through Commission approval and are recognized in the year the appropriation is approved. The report also includes specific details relevant to the project such as project status, scope of the project, estimated annual operating impact, and estimated completion dates.
 - *Projects by Funding Source*: This report organizes the various funding sources from which projects are funded and further details the funded amount of the project by the specific funding source.
- **OPERATING IMPACT SUMMARY** – This section describes the methodology used to calculate the estimated annual operating impact expected upon completion.
- **APPENDICES** – The CIP contains various appendices with information that may be useful and provide additional detail to understanding the Capital Plan, such as a listing of all capital appropriations that were approved in the previous year and actual expenditures for each funding source by project.

Purpose of the Capital Improvements Plan

The Capital Plan is compiled by the Office of Management and Budget with input from all city departments which have capital projects. It presents a comprehensive, six-year plan for enhancing and maintaining public infrastructure by repairing current facility and asset deficiencies as well as providing new service delivery infrastructure. The Capital Improvements Plan serves the following main purposes:

- Identifies the planned improvement projects
- Estimates the costs over the six-year period
- Provides the budgeted fund sources available for capital projects

The City defines a capital improvement as the acquisition, construction, reconstruction, or installation of a physical public improvement or addition to fixed assets in the form of land, buildings, or improvements with a value of \$5,000 or more and a “useful life” of at least three years.

The Capital Plan contains the individual capital projects, equipment purchases and major studies of the City in conjunction with construction and completion schedules, and financial plans. The Capital Plan provides a working blueprint for sustaining and improving the City’s infrastructure over a six-year window. It coordinates strategic planning, financial capacity, and physical development.

The Capital Improvements Plan provides the following benefits:

- Synchronizes capital and operating budgets
- Systematically evaluates competing demands for resources based on a prioritization matrix reflecting the City’s long-term strategy goals and objectives
- Identifies, prioritizes, and optimizes the financing of capital projects
- Links strategic and comprehensive capital plans with fiscal capacity
- Informs the public about the City’s investment in infrastructure

The FY 2024-25 Capital Plan is an update to the FY 2023-24 Capital Plan which was adopted with modifications on September 9, 2023 pursuant to Resolution No. R-23-0376, as subsequently amended on September 14, 2023 pursuant to Resolution No. R-23-0448, on October 26, 2023 pursuant to Resolution Nos. R-23-0484 and R-23-0485, on November 16, 2023 pursuant to Resolution Nos. R-23-0508, R-22-0509, and R-22-0519, on December 16, 2023 pursuant to Resolution No. R-23-0549, on February 22, 2024 pursuant to Resolution Nos. R-24-0075 and R-24-0061, on March 14, 2024 pursuant to Resolution No. R-24-0103, on April 24, 2024 pursuant to Resolution No. R-24-0165, and on July 11th, 2024 pursuant to Resolution Nos. R-24-0266, R-24-0267, and R-24-0272.

Legal Authority

The legal requirements for preparing the City’s Capital Plan are set forth in the Florida Statutes and the City of Miami Code. A capital improvement programming process to support the Comprehensive Plan is required by the Community Planning Act, specifically Sections 163.3161 and 163.3177, Florida Statutes (2022). Furthermore, pursuant to Chapter 18/Article IX/Divisions 1 and 2 of the Code of the City of Miami, Florida, as amended, entitled “Finance/Financial Policies/Anti-Deficiency Act/Financial Integrity Principles”, requires the development and approval of a multi-year capital plan which also delineates specific requirements for inclusion.

Purpose of the Capital Improvements Plan

The first year of the six-year Capital Plan also serves as the Annual Capital Budget. The City's Capital Budget, separate from the annual operating budget, presents the funding plans for City construction and repair projects, and purchases of land, buildings, or equipment.

In accordance with the City's Financial Integrity Principles, the City Manager submits the Capital Budget concurrently with the Operating Budget each year. The Capital Budget authorizes capital project expenditures, while the Operating Budget authorizes the expenditure of funds for such things as employee salaries and the purchase of goods and services. Capital projects may have an impact on the Operating Budget through additional costs to operate new facilities or the expansion of current City assets, potential additional revenues the improvement can bring to the City, or cost savings from acquisition more effective and efficient equipment. The final Capital Budget is adopted by the City Commission each year in September.

Individual capital projects may not exceed the amount appropriated in the Adopted Capital Budget and, if a project requires additional funds, the Capital Plan can be subsequently amended throughout the fiscal year as needed. Any amendments to the capital project budgets are required to be heard and approved by the City Commission.

Capital Improvements Plan Framework

The Capital Plan has been developed to align current and projected capital projects, equipment purchases, and major studies with the City's Strategic Initiatives. It also incorporates the Construction Review and Synchronization Process (CRSP) for new projects and the Project Prioritization Matrix.

Strategic Initiatives

The City's Strategic Initiatives provide the framework to fulfill the City's goals and objectives. To fulfill this mission, the Capital Plan must include capital projects, equipment purchases, and major studies that meet or align with one or more of the following Strategic Initiatives:

- Improving resident's quality of life
- Strengthening the City's resiliency
- Leading the community into a pathway to prosperity

Capital Project Program Funds

The Capital Plan is organized by department and each project is identified by a distinct program fund based on the attributes of the project. Each program fund maintains specific financial details of the capital project. The program funds are detailed below:

- **General Government** – This program consists of general governmental capital enhancements and improvements to municipal buildings and operations facilities. This also includes computers and communications equipment.
- **Public Safety** – This program consists of acquisition of equipment or construction of major facilities that support the operations of the Police and Fire-Rescue Departments.
- **Disaster Recovery** – This program is utilized to account for revenue received from the federal government, insurance, and other agencies resulting from declared disasters.
- **Public Facilities** – This program includes improvements to public use facilities; such as stadiums, auditoriums, and marinas.
- **Parks and Recreation** – This program accounts for the acquisition, rehabilitation, or construction of capital facilities for recreational activities in parks throughout the City.
- **Streets and Sidewalks** – This program provides reconstruction, major maintenance, and beautification to Miami's street system.
- **Mass Transit** – This program accounts for the acquisition of equipment or construction of capital facilities that support the maintenance and operation of public transportation systems.
- **Sanitary Sewers** – This program includes projects that will improve the City's existing sanitary sewer system.
- **Storm Sewers** – This program accounts for projects that result in improved drainage and storm water management throughout the City.
- **Solid Waste** – This program includes projects for the acquisition of equipment or construction of facilities for the collection and removal of solid waste.

Capital Improvements Plan Framework

Project Sources

The intent of the Capital Improvements Plan is to be a comprehensive plan that is based on input from multiple sources from within the City that involves other regional strategies from other agencies and the private sector that will ultimately support the City's strategic goals of Pathway to Prosperity, Quality of Life, and Resilience for the benefit of its residents and the City as a whole.

As part of the Capital Plan preparation, a series of steps are undertaken by City staff to understand and broaden the possible sources for capital construction improvement projects to include:

- Projects and needs are identified by Client Departments
- Projects and needs identified by outside agencies such as Downtown Development Authority (DDA), Southeast Overtown Park West Community Redevelopment Agency (SEOPW CRA), and Omni Community Redevelopment Agency (OMNI CRA)
- Projects and needs identified for Local Mitigation Strategy (LMS) for Federal Emergency Management Agency (FEMA)
- Project and needs to be coordinated with other governmental agencies such as Miami-Dade County, the State of Florida and the Florida Department of Transportation (FDOT).

Office of Capital Improvement's (OCI) Role

The OCI performs an all-inclusive review of on-going and future capital construction improvement projects with Client Departments. The joint review of projects between OCI and the Client Department provides:

- Identification of required managerial and technical roles or expertise to execute projects
- Integration and optimization of Citywide resources for delivery of projects
- Citywide reporting of capital construction improvement projects

Based on the joint review, the Client Department and OCI will determine OCI's role as follows:

- **Management Role:** The Client Department relies on the Office of Capital Improvements for the management, execution, and reporting of a Capital Improvement project. In this scenario, OCI's role is to manage the entire project
- **Oversight Role:** The Client Department undertakes the management, execution, and reporting of a Capital Improvement project; but requires OCI's technical assistance to carry out the work. In this scenario, OCI's role is "Oversight" of the project
- **Visibility Role:** The Client Department fully undertakes the management, execution, and reporting of a Capital Improvement project, without assistance from OCI. In this scenario, OCI's role is "Visibility" of the project.

Capital Improvements Plan Framework

Office of Management and Budget's (OMB) Role

OMB plays an important role in determining funding availability for capital construction and non-construction projects, funding those capital projects as funding is available, and ensuring capital projects are funded according to specific requirements of the funding sources that are available.

Throughout the year, OMB liaise with elected officials, stakeholder groups, and all Departments that have capital projects to ensure that the most important projects are funded and prioritized. The prioritized projects are funded by a capital appropriation through the annual Capital Budget or an as needed Capital Amendment which are presented and approved by the City Commission.

As part of the annual Capital Budgeting process, OMB meets with each department to review their respective capital projects and discusses the status as well as what has been accomplished to meet the City's overall goals and strategies. This information is compiled and presented in the Multi-Year Capital Plan.

Capital Project Prioritization Criteria

The City uses a Project Prioritization Matrix with nine criteria to analyze, rank, and ultimately prioritize projects for funding. Projects with highest ranking are given priority funding and implementation in the Capital Improvements Plan. The criterion used is listed as follows:

- **Life, Health, and Safety** – Projects that are necessary to meet life, health, or safety requirements or eliminate potentially imminent life, health, or safety risks. Examples of these include facility water intrusion, asbestos abatement, and repair of damages caused by natural disasters.
- **Legal and Regulatory Compliance** – Projects that are necessary to attain or maintain compliance with legal and mandated requirements set forth by federal, state, local or other jurisdictions. Also includes projects that may be required to satisfy legal settlements with private individuals, entities or regulatory agencies. Examples of these projects are a federal mandate to comply with Americans with Disabilities requirements, or a regulatory agency’s mandate to remediate contaminated soils.
- **Essential Improvements** – Projects that are necessary for improvements to the functioning, capacity, or preservation of facilities, infrastructure, or historic sites. This criterion measures the extent to which a facility or infrastructure has deteriorated and needs improvements relative to the overall condition of similar facilities or infrastructure. Examples of these projects are roof repairs or replacements, bathroom remodeling, and roadway reconstruction.
- **Strategic Alignment** - Projects that align with Strategic City initiatives. The execution of these projects will align with or more of the strategic goals outlined by City Administration. Examples of these projects are Fire-Rescue station replacements, construction of new parks, public safety and public service facilities, new sidewalks or baywalks, or projects promoting affordable housing.
- **Infrastructure Risk Management and Resiliency** - Projects that improve City resilience through the prevention or mitigation of infrastructure damage, reduce recovery time from natural disasters, or provide redundancy to prevent service disruption. Examples of these projects are replacement of seawalls, installing backflow valves, constructing new storm pump stations, or installing new backup generators to avoid service disruption at key and critical infrastructure.
- **Environmental Protection** - Projects intended to conserve, preserve, or increase natural resources (including tree canopy, greenspace, or shorelines) or protect or improve air or water quality. Examples of these projects are canal dredging and shoreline restoration.
- **Coordination and Dependency** - Projects that, if performed in conjunction with other entities or agencies, will provide better integration, reduce commitment of the City's capital resources, and allow a more efficient project execution. Examples of these are projects that involve Joint Participation Agreement with Miami-Dade Water and Sewer Department (M-DWASD), Local Participation Agreements (LAP) with FDOT, or City Commissioned approved agreements with private developers.
- **Leverage External Funds** - Projects that can leverage funds from, or that are funded by, external funding sources such as Federal, State, County, private, and other local entities. Example of these projects that can be eligible for external funds such as Florida Inland Navigation Development (FIND) grants, Community Development Block Grants (CDBG), SEOPW CRA, or OMNI CRA.
- **Revenue Producing or Cost Savings** - Projects that, when completed, will generate additional revenues or increase efficiency resulting in continual cost savings to the City. Examples of these projects are improvements or additions to marinas or cultural and historic venues that will increase marketability or operational revenue. Other examples are retrofitting of existing facilities with more efficient technologies or upgrade to newer materials that will reduce operational cost.

Major Funding Programs for Capital Projects

Miami Forever Bond

The Miami Forever Bond will build a stronger, more resilient future for Miami, alleviating existing and future flood risks to our residents, economy, and the City's legacy. The program's goal is to make an immediate impact while delivering long term solutions that result in a compelling safety, wellness, equity, economic, and modernization return on investment.

Background:

In the November 2017 election, Miami's citizens approved \$400 million for the Miami Forever Bond.

- \$192 million designated to prevent and mitigate the impacts of flooding and sea-level rise.
- \$23 million designated to improve our roads and provide a safe, convenient, effective and multimodal roadway system.
- \$78 million designated to improve the quality of our parks and cultural facilities and create more open and green space for all.
- \$7 million designated to public safety to enhance the City's ability to save lives and protect property.
- In December 2018, the City Commission approved (R-18-0546) the Miami Forever Bond's the first Declaration of Official Intent, totaling \$58.653 million.
- Since December 2018, the City Commission has declared the City's Official Intent to reimburse eligible costs through the issuance of debt totaling over \$250 million.
- On February 14th, 2019, the City Commission authorized the City Manager and the City Attorney to take all steps necessary to validate the approved and expected future expenditures of the Miami Forever Bond, including entering the State Court system in accordance with Chapter 75, Florida Statutes, and all other applicable State, Federal, and local laws.
- On May 9th, 2024, the City Commission further approved (R-24-0182), which supplemented R-19-0062 and authorized the issuance and execution of a Bond Purchase agreement in an aggregate principle of \$179.520 million for infrastructure projects (2024A Tax-Exempt and 2024B Taxable Series).
- On June 12th, 2024, the City of Miami closed on the sale of the Limited Ad Valorem Series 2024A Tax-Exempt and Series 2024B Taxable for the Miami Forever Bond Program.
- On July 1st, 2024, the City Commission further approved (R-24-0275), which supplemented R-19-0062 and authorized the issuance and execution of a Bond Purchase agreement in an aggregate principle of \$73.510 million for additional infrastructure projects (2024C Tax-Exempt Series).

Guiding Themes:

The City developed five themes to guide the project selection process. We use these themes, along with each bond category goals and objectives, to measure the impact projects will have on making Miami a stronger, more resilient city:

- **Safety:** Enhance public safety to lessen the frequency and severity of the impact from man-made events and natural hazards. Provide the City with enhanced resources to effectively respond to incidents to minimize the negative effects on our residents.

Major Funding Programs for Capital Projects

- Wellness and Quality of Life: Preserve and enhance Miami as a desirable place to live, work and play.
- Equity: Distribute benefits across all parts of community and socio-economic levels emphasizing those with the highest need while maintaining the cohesiveness of the city's social fabric, interaction and diversity.
- Economic Return: Consider a cost and benefit framework that evaluates different scenarios for risks mitigation and crisis prevention that could affect the economic vitality of the city and property value.
- Modernization: Invest in information and communication technology and infrastructure to enhance quality and performance of urban services.

Execution Strategy:

The Bond program is being executed in three phases; Immediate Impact, Gain Momentum, and Long-Term solutions.

- Immediate Impact: The bond kick-off had an immediate impact with the launch of over 100 projects that will be completed within three years. The projects were selected based on the five guiding themes, each bond category's goals and objectives, and coordination with our citizens and partners. The deliberate selection process resulted in the First Declaration of Official Intent of \$58.653 million to be invested in critical projects spread across all bond categories and sections of the city. The first tranche is divided into two series of allocations, Series A Infrastructure and Series B Affordable Housing.
 - Series A – Infrastructure – to include:
 - Roadways
 - Parks and Cultural Facilities
 - Public Safety
 - Sea-Level Rise and Flood Prevention
 - Series B – Affordable Housing – to include
 - Develop and invest in Affordable Housing solutions
 - Initiate and continue Affordable Housing studies, plans and assessments
- Gain Momentum: This phase provides an opportunity to strategically program the first series of projects, strengthen partnerships and agreements, and set a strategic course for future investment. While programming over 100 projects already in the pipeline, a detailed organizational capacity assessment will be performed to ensure projects are successful. These requirements include a three-year time completion, creating new and employing alternative methods of procurement, developing a rigorous risk management plan, and establishing compliance and stewardship guidelines.
- Long Term Solutions: This phase will deliver design and construction of the first series of projects, capture lessons learned, begin future bond tranche investments, and address resiliency through non-infrastructure measures.

Major Funding Programs for Capital Projects

- Establish strict project and financial monitoring and reporting processes while working with the City Commission appointed bond civilian oversight board.
- Refine the project selection model for subsequent tranches using lessons learned, study results, professional staff analysis, partner participation, and community engagement.
- Assess and update the City's zoning, planning and building policies and standards to institute rules that will maximize the resiliency benefits from new development.

Status:

1st Declaration of Official Intent Set of Projects (December 2018)

Of the 36 active projects, there is 1 project in Planning, 1 project in A/E selection, 4 projects in design, 5 in procurement, 9 in construction and 16 are completed/closed. 3 original projects under this declaration were cancelled/withdrawn.

2nd through 8th Declaration of Intent – Set of Projects (January 2021 – May 2023)

Of the 30 active projects, there are 12 projects in planning/pre-development, 3 projects in design, 2 in procurement, 1 is an active homeownership loan program, 7 are in construction, 1 in the process of closing on an acquisition, and 3 are completed/closed. 1 original project under this declaration was withdrawn.

9th through 13th Declaration of Intent – Set of Projects (June 2023 – March 2024)

Of the 29 active projects, there are 8 projects in planning/pre-development, 15 projects in A/E selection or design, 2 in permitting, 3 are in construction, and 1 is completed/closed.

Issuance and Final Set of Projects (April 2024 – Future)

Currently, post issuance, the bond is anticipated to provide additional funding to 30 to 40 active MFB Bond projects

Subsequent to the Bond sale, the City will initiate the projects and the use funding for:

- Roadways - \$15 million for Very Poor Condition Roads
- Parks and Cultural Facilities - \$33 million for New or Existing Critical Need Projects
- Public Safety - \$6.5 million for Design/Development of Fire Station # 10
- Sea-Level Rise and Flood Prevention - \$55 million for New or Existing Critical Need Projects
- Affordable Housing - \$35 million to further develop and invest in Affordable Housing solutions throughout the City.

Key Highlights:

- City has issued \$135.45 million (Tax-exempt Series 2024A) and \$44.06 million (Taxable Series 2024B) bonds that reimburse expenses incurred for MFB eligible infrastructure projects. This issuance will provide \$191.76 million of project funding.
- Antonio Maceo Boat Ramp is in construction with anticipated completion in December 2024.

Major Funding Programs for Capital Projects

- Jose Marti Park - Shoreline/Seawall, Kayak launch, and Riverwalk– Project is anticipated to start construction bidding process in July 2024.
- Morazan Quesada Park Renovations and Enhancements project is pending dry-run FDOT permit approval to complete the bidding process. Construction is anticipated to start in September 2024.
- West End Park Pool and Enhancements project is in Construction at 30% complete. The project is expected to be completed by Mid 2025.
- Coral Way Park project in construction 20% complete. The project is expected to be completed by December 2024.
- A Design Criteria Package (DCP) has been completed and plans were updated for the Brickell Bay Drive project. The Design/Build contract has been advertised and is expected to be awarded by December 2024.
- The Design of the South Bayshore Lane/Fairview Phase II Pump Station project has been completed. This project is now in the bidding phase expected to be awarded in July 2024.
- Very Poor Roads Projects: completed 2 road segments, 4 are at 100% design. Package 1 Design/Build project, which includes five locations, has been awarded and is currently under Construction at 60% complete.
- Legion Park Building Renovations currently under Construction at 90%, forecasted to be completed by September 2024.
- Shenandoah Park – Phase I and II have been completed. Phase II is under Construction 95% complete, expected to be completed by September 2024.

Upcoming Actions:

- Overall status of project list and prioritization:
 - Roadways – Assessing road’s Pavement Condition Index (PCI) using Cartograph. Further, all Roadway projects have been fully Identified and prioritized.
 - Parks – A comprehensive list for prioritized Parks projects has been identified, pending Commission approval for appropriation.
 - Sea-Level Rise and Flood Prevention – A comprehensive list for prioritized SLRFP projects has been identified, pending Commission approval for appropriation.
 - Public Safety – Fund Fire Station 10 for design is underway.

American Rescue Plan Act (ARPA)/State and Local Fiscal Recovery Funds (SLFRF)

The Coronavirus State and Local Fiscal Recovery Funds (SLFRF), a part of the American Rescue Plan, delivers \$350 billion to state, local, and Tribal governments across the country to support their response to and recovery from the COVID-19 public health emergency. The program ensures that governments have the resources needed to:

- Fight the pandemic and support families and businesses struggling with its public health and economic impacts;
- Maintain vital public services, even amid declines in revenue;
- Build a strong, resilient, and equitable recovery by making investments that support long-term growth and opportunity;

Major Funding Programs for Capital Projects

- Support the COVID-19 public health and economic response by addressing COVID-19 and its impact on public health as well as addressing economic harms to households, small businesses, nonprofits, impacted industries, and the public sector.

Background:

The City of Miami was awarded \$137,639,417 to respond to the economic and public health impacts of COVID-19. The City will use these funds to assist its communities, residents, and businesses rebound from the public health emergency.

ARPA program established several eligible expenditure categories:

Public Health (EC 1): The Fiscal Recovery Funds provide resources to meet and address public health needs, including through measures to counter the spread of COVID-19, through the provision of care for those impacted by the virus, and through programs or services that address disparities in public health that have been exacerbated by the pandemic.

Negative Economic Impact (EC 2): The Fiscal Recovery Funds to respond to the negative economic impacts of the COVID-19 public health emergency, are to address economic harm resulting from or exacerbated by the public health emergency and include Assistance to Unemployed Workers, Assistance to Households, Expenses to Improve Efficacy of Economic Relief Programs, Small Businesses and Nonprofits, Rehiring Staff, Aid to Impacted Industries, Building Stronger Communities through Investments in Housing and Neighborhoods, Addressing Educational Disparities, and Promoting Healthy Childhood Environments.

Public Health-Negative Economic Impact: Public Sector Capacity (EC 3):

Fiscal Recovery Funds under this category help rebuild the public sector workforce by funding incentives such as Payroll and Benefits for Public Health, Public Safety, or Human Services Workers, and Rehiring Public Sector Staff. The Funds in this category also support the build of the public sector capacity, by providing funds for Effective Service Delivery and Administrative Needs.

Premium Pay (EC 4):

Since the start of the COVID-19 public health emergency in January 2020, essential workers have put their physical wellbeing at risk to meet the daily needs of their communities and to provide care for others. Premium Pay is for eligible workers performing essential work during the COVID-19 public health emergency or to provide grants to third-party employers with eligible workers performing essential work.

Infrastructure – Water, Sewer, and Broadband (EC 5):

Fiscal Recovery Funds provide funds to assist in meeting the critical need for investments and improvements to existing infrastructure in water, sewer, and broadband. The eligible use of funding under this category allows a broad range of necessary investments in projects that improve access to clean drinking water, improve wastewater and stormwater infrastructure systems, and provide access to high-quality broadband service.

Revenue Replacement (EC 6):

Major Funding Programs for Capital Projects

Fiscal Recovery Funds may be used for the provision of government services to the extent of the reduction in revenue experienced due to the COVID–19 public health emergency. Reduction in revenue is measured relative to the revenue collected in the most recent full fiscal year prior to the emergency. Under the Interim Final Rule, recipients calculate revenue loss using data as of four discrete points during the program: December 31, 2020, December 31, 2021, December 31, 2022, and December 31, 2023.

Eligible Administrative Expense (EC7):

The City procured the administrative services of a program consultant, which are subject matter experts in ARPA and Grant Management to help with the eligibility, management, weekly meetings, monitoring, site visits, community engagement, and reporting for the funds.

Emergency Relief from Natural Disasters (EC8):

Fiscal Recovery Funds under this category would provide emergency relief from natural disasters or the negative effects of natural disasters.

Surface Transportation Projects (EC9):

Fiscal Recovery Funds may be used for Surface Transportation projects where the recipient would supplement current surface transportation projects receiving Department of Transportation (DOT) funding, or fund surface transportation projects not currently receiving DOT funding, or to satisfy the non-federal share requirements for certain surface transportation projects or repaying a loan provided under the Transportation Infrastructure Finance and Innovation Act (TIFIA) program.

Title I Projects (EC10):

Fiscal Recovery Funds may be used to fund Title I projects. Title I of the Housing and Community Development Act of 1974 authorized the Secretary of Housing and Urban Development to make grants to States and Units of general local government to help finance Community Development Programs, this includes eligible activities under the Community Development Block Grant (CDBG) Program or Indian Community Development Block Grant Program (ICDBG).

The Department of Treasury issued the Final Rule on January 6, 2022. The Department of Treasury will continue updating the SLFRF Compliance and Reporting Guidance as the program evolves.

Guiding Objectives and the use of Fiscal Recovery Funds:

The City had initially proposed to distribute a majority of the funding (\$113.7M) to revenue replacement for general services, with the remaining \$23.9M earmarked for social services programming, community development, and infrastructure projects. In 2022, the City proposed to allocate funding across five (5) City Districts, the Mayor’s Office, IT Department, Department of Housing and Community Development, Department of Human Services, Department of Parks and Recreation, which included site infrastructure improvements, social programs, and other eligible activities broken down by functional areas of critical need as listed below. Please note that these initial fund assignments have changed as the program progressed.

- \$89,025,000 for Community Projects (5 Districts)
- \$23,214,417 for Revenue loss

Major Funding Programs for Capital Projects

- \$14,500,000 for Housing
- \$5,650,000 for Human Services
- \$3,250,000 for Innovation and Technology and
- \$2,000,000 for City Wide Parks Equipment and Site Improvements

Status:

In Fiscal Year 2023, the City recommended a revised Recovery Plan, modifying the District distribution proposed in 2022, reallocating funding to address the most immediate expenditure activities, with primary focus on public safety and other general services.

Per Sections 602(c)(1)(C) and 603(c)(1)(C) of the Social Security Act, SLFRF funds may be used “for the provision of government services to the extent of the reduction in revenue of such government due to the COVID–19 public health emergency relative to revenues collected in the most recent full fiscal year of the government prior to the emergency.”

Key Highlights:

- All SLFRF Funds have been obligated.
- Out of a total of 75 eligible projects: 22 have been completed, 7 are approaching completion, 30 are in progress, 11 remain in review
- 15 Capital Projects have been determined eligible for ARPA funding under Negative Economic Impact and Infrastructure Category.
- All proposed Capital Projects have been reviewed for eligibility.
- All proposed Housing & Community Development Projects having been reviewed for eligibility.
- Several initial projects have been withdrawn and funding reprioritized.
- Further, \$72,740,732.84 has been allocated as Revenue Loss, covering general services expenditures for Fiscal Year 2020-21, Fiscal Year 2021-22, and Fiscal Year 2022-23. Of this amount, \$3,164,000 was allocated for public safety equipment and solid waste service vehicles.

In summary, as of September 2024, the City’s usage of SLFRF funding is (by EC Category):

- Public Health (EC1): \$1,350,000.00
- Negative Economic Impacts (EC2-EC3): \$54,528,500.00
- Premium Pay (EC4): \$920,174.16
- Infrastructure (EC5): \$5,500,000.00
- Revenue Replacement (EC6): \$72,740,742.84
- Administrative (EC7): \$2,600,000.00

Per US Treasury Guidelines: All funds remain subject to statutory and regulatory requirements that they must be used for costs incurred by the City of Miami during the period that began on March 3, 2021, and ends on December 31, 2024, and that award funds for the financial obligations incurred by December 31, 2024 must be expended by December 31, 2026. Any funds not used must be returned to Treasury as part of the award closeout process pursuant to 2 C.F.R. 200.344(d).

Funding Overview

The six-year CIP from FY 2024-25 to FY 2029-30 includes funding of \$1.686 billion for 810 capital projects. During FY 2024-25 new capital budget appropriations totaling \$61.827 million will be used to fund 44 projects as detailed in the Plan.

Overview of Program Fund

The specific attributes of planned projects determine the program fund that will be assigned to the project.

The adjacent chart shows that the Public Facilities program fund accounts for the largest portion of the total Capital Plan funding at \$439.658 million, or 26.1 percent of the overall Capital Plan value. The Parks and Recreation program fund is the second largest and accounts for \$342.460 million, or 20.3 percent. The Storm Sewers program fund, the third largest, accounts for \$319.528 million, or 19 percent of the overall Capital Plan value.

Detailed information for Program Funds can be found in *Detailed Report by Capital Project Number* located in the Appendix section.

Public Facilities	\$439,658,000	Solid Waste	\$9,628,000
Parks and Recreation	\$342,460,000	Sanitary Sewers	\$5,436,000
Storm Sewers	\$319,528,000	Disaster Recovery	\$338,000
Streets and Sidewalks	\$244,945,000		
General Government	\$210,880,000		
Public Safety	\$98,881,000		
Mass Transit	\$14,244,000		
TOTAL:			
\$1,685,998,000			

Overview by Department

Projects can also be presented by the specific department to which the project is assigned to during the development, design, or construction phase.

Name	Total Cost Six Year Plan	Total Funding Six Year Plan	Priors Years	Current	Unfunded
Building	\$87,203,000	\$87,203,000	\$74,903,000	\$12,300,000	
Commissioner's Office, Police	\$152,000	\$152,000	\$152,000		
Communications	\$664,000	\$572,000	\$572,000		\$92,000

Downtown Development Authority	\$27,489,000	\$1,355,000	\$1,355,000		\$26,134,000
Finance	\$33,142,000	\$33,142,000	\$33,142,000		
Fire-Rescue	\$264,069,000	\$62,274,000	\$59,028,000	\$3,246,000	\$201,795,000
General Service Administration	\$53,322,000	\$43,402,000	\$41,088,000	\$2,314,000	\$9,920,000
Housing and Community Development	\$5,488,000	\$5,448,000	\$5,448,000		\$40,000
Human Services	\$91,000	\$91,000	\$91,000		
Innovation and Technology	\$8,357,000	\$6,357,000	\$6,207,000	\$150,000	\$2,000,000
Office of Capital Improvements	\$58,983,000	\$9,927,000	\$9,927,000		\$49,056,000
Parks and Recreation	\$532,969,000	\$368,765,000	\$342,527,000	\$26,238,000	\$164,204,000
Planning	\$3,441,000	\$596,000	\$596,000		\$2,845,000
Police	\$301,223,000	\$59,011,000	\$57,177,000	\$1,834,000	\$242,212,000
Real Estate and Asset Management	\$466,377,000	\$410,079,000	\$408,076,000	\$2,003,000	\$56,298,000
Resilience and Public Works	\$2,405,268,000	\$594,467,000	\$580,725,000	\$13,742,000	\$1,810,801,000
Risk Management	\$16,520,000	\$1,520,000	\$1,520,000		\$15,000,000
Solid Waste	\$1,449,000	\$1,472,000	\$1,472,000		\$(23,000)
Zoning	\$165,000	\$165,000	\$165,000		
	\$4,469,122,000	\$1,685,998,000	\$1,624,171,000	\$61,827,000	\$2,783,124,000

The adjacent chart shows that the Parks and Recreation Department accounts for the largest portion of the FY 2024-25 Capital Plan new funding at \$26.238 million; followed by the Department of Resilience and Public Works and Building Department at \$13.742 million and \$12.3 million; respectively.

Additional detail of the projects by department can be found in the *Sources and Estimated Costs by Department Capital Plan Reports* Section.

Funding Overview

Overview by Funding Source

The *Funding Source by Project Number* in the Capital Plan Reports Section provides a listing of projects associated with the various funding sources.

The overall funding types included in the FY 2024-25 Capital Plan are summarized in the adjacent chart. City Funds make up the largest share of funding at 49.5 percent, followed by City Debt Proceeds and Federal Funding that Pass-Through State at 32.2 percent and 7.8 percent, respectively. The remaining 10.5 percent is made up of funding from State Sources, County Sources, Federal Sources, Private sources, Other Local Units, and lastly Donations.

Each of those funding sources for projects in the Capital Plan can be categorized into the specific types as detailed below:

■ City Funds	\$834,432,000	■ Federal	\$27,900,000
■ City Debt Proceeds	\$543,374,000	■ Private	\$11,706,000
■ Federal Pass Through State	\$131,266,000	■ Other Local Units	\$6,744,000
■ State	\$89,149,000	■ Donation	\$3,513,000
■ Miami-Dade County	\$37,914,000		
..... TOTAL: \$1,685,998,000			

- **City Funds** - These funds are collected from current revenues produced by miscellaneous county or city taxes and or fees. Notable funding sources included in this category are the annual General Fund contribution to capital projects, storm water utility funds, Local Option Gas Tax (LOGT), the transit half-cent surtax, the parking surcharge, and impact fees.
- **City Debt Proceeds** - Two types of debt proceeds can be issued by the City for capital improvements:
 - **General Obligation Bonds** are backed by the full faith and credit of the City of Miami. They are secured and repaid by a stand-alone property tax rate, after a vote by the citizens of the City. These bonds typically finance specific capital improvement programs such as public safety, roadway, or storm sewers, according to the referenda language.
 - **Special Obligation Bonds** are secured by limited, specified revenue sources. In order to accelerate the construction of much needed road and drainage infrastructure projects, the City leverages recurring revenue streams from the LOGT, the Transit Half-Cent Surtax, and the Parking Surcharge into a special obligation bond program.
- **State Grants** - State grants are awarded by State of Florida agencies such as the Florida Department of Transportation (FDOT) and the Florida Inland Navigation District (FIND). These grants may be used only for the purposes specified in State laws.

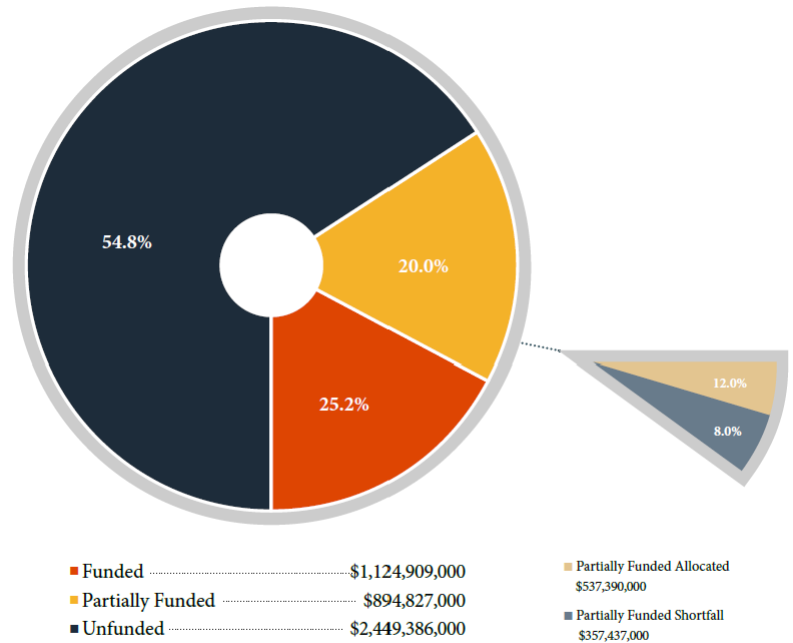

Funding Overview

- **Federal Grants** - Federal grants, such as Community Development Block Grants (CDBG), may be used only for the purposes specified by Federal laws. The amount of funding available from Federal sources is outside the City’s control. These grants derive from agencies at the federal level such as the Federal Emergency Management Agency (FEMA) and Housing and Urban Development (HUD).
- **Miami-Dade County Grants** - Miami-Dade County may contribute funding in the form of a grant for specific projects to be undertaken by the City.
- **Other Grants** - These are grants which do not derive from Federal, State or Miami-Dade County resources. An example of this funding type is a grant or contribution from another municipality.
- **Private Sources and Donation**- This funding source includes any private funds contributed to the City as well as the dedication or sale of land for capital facilities.

Overview by Funding Status

The projects in the Capital Budget can be placed in one of three self-explanatory funding proportion categories: funded, partially funded, or unfunded.

The *Sources and Estimated Costs by Department* report in the Capital Plan Reports Section provides the funded proportion for each active and future project detailed in the Capital Plan by City department. It is important to note that the total funded amounts in the CIP do not account for unfunded project estimates. The funding proportion is determined by comparing a project’s estimated costs against anticipated revenues and budgeted available funds. It is anticipated that revenues to address the unfunded gap will be filled by future year allocations of general fund revenues or other revenues sources, successful pursuit of grants, or the identification of new revenue sources, or new financing options.

..... TOTAL: \$4,469,122,000

The proportion of active project estimates that is currently partially funded accounts for 20 percent of total estimated costs for the projects as shown in the adjacent chart. This percentage is derived from the 8 percent of the projects that are in shortfall as well as the partially funded portion of 12 percent. The total estimated costs for future unfunded projects account for 54.8 percent as shown in the adjacent chart. The needs are evaluated annually based on priorities and availability of funding.

Highlights

Capital projects benefit the City of Miami, its residents and visitors by maintaining key infrastructure and functionality, maximizing the use of technology for greater efficiency and service delivery. Capital projects maintain and improve mobilization, physical infrastructure and recreational facilities, while providing greater safety. Noteworthy accomplishments during FY 2023-24 are listed below.

OCI Fiscal Year 2023-24 - General Accomplishments

*The Office of Capital Improvements (OCI) started construction **of six new projects worth over \$45M**, and it completed construction of **six projects worth \$25M** that are now enjoyed by the residents in the City of Miami, improving the quality of life in the community! OCI continues to work on the planning, design, permitting and construction of several vertical infrastructure projects, among them:*

- Dog Run Park, continued design of an 8,000 square foot park that will include enclosure, seating areas, water fountain, walkway and site furnishing.
- Fairlawn Community Park Phase I, celebrated together with the community in July 2024 the completion and grand opening of Phase I of the park, to include a new playground area and a new dog park!
- Fairlawn Community Park Phase II, soon to start construction of phase II, to include outdoor fitness equipment and a multiuse field.
- Hadley Park Resiliency Hub, continued design of the building's exterior and key access areas, including a new emergency generator and electrical upgrades for charging stations and WIFI.
- Jose Marti Park, design plans include 1,150 linear feet of riverwalk improvements to include a new seawall, retaining wall, living shoreline with rip rap revetments, water taxi landing with loading dock, kayak launch and a floating boardwalk with two gangways.
- Barnyard at Coconut Grove, working in the design of roof waterproofing of this iconic building.
- Alice Wainwright Park Enhancements to include new restrooms and park office remodeling.
- Virginia Key Northpoint Park Improvements, to include the demolition and construction of new ADA accessible restrooms, a new septic tank and handicap parking spaces.
- Grapeland Heights Park and Baseball Park to include upgrade of two baseball fields to artificial turf and restoration of two fields with natural grass.
- Spoil Island E (across from Dinner Key Marina), working on the design of the dock reconstruction.
- Police HQ Garage - Demolition and Site Improvements.
- Peacock Park, working on the design and permitting of the shoreline stabilization and kayak launch.
- Belafonte Tacolcy Park improvements, to include replacement of all exterior doors and windows that need replacement.
- Athalie Range Park, design and permitting of a new recreation building and completion of a general park plan.
- Roberto Clemente Park, irrigation, drainage and baseball field improvements.
- Commodore Trail, initial planning of the trail master plan and improvements.

Highlights

- Morningside Park improvements to include a new baywalk, kayak launch and boat ramp (phase I).
- 40 Year Building Recertification – Citywide on-going recertification of public facilities.
- Environmental Monitoring and Remediation – Citywide project.
- Re-roofing Building B-3 – Communications/GSA.
- General Morazan Quesada Park, design plans include renovations of playground equipment and a synthetic turf field.
- West End Park – Pool and Enhancements, to include a new aquatics area with a new swimming pool, building and overall park enhancements.
- Fire Station No. 8, floor and structural repairs.
- Antion Maceo Park Boatramp Renovation, including a concrete boat ramp, sidewalks, stationary dock and a floating dock.
- New Woodside Mini-Park, working in environmental issues to start construction of a new park in the neighborhood that will include walkways, green spaces, perimeter fencing and exercise equipment in Phase I of the project.

OCI Community Outreach and Engagement: *OCI coordinated over 31 citywide events to celebrate the start/completion of projects and advance the design of capital projects through community feedback received at various community meetings (for horizontal and vertical capital projects).*

OCI Celebrated with the Community the Completion/Start of Construction Projects:

- Completion of Kenneth Myers Park (Seminole Boat Ramp), including 110 linear feet seawall, upgraded sidewalk, a boat ramp with three docking platforms, a floating dock and parking lot resurfacing.
- Completion of Shenandoah Park Playground and a Multipurpose Field project, to complete the surrounding area of last year's newly completed aquatics center!
- Completion of a new park, the Fairlawn Park Phase I, including a great playground area and a fun dog park area!
- Completion of Antonio Maceo Sewer Line Replacement to prevent clogging and flooding.
- Completion of MRC Parking Garage, including structural assessment and repairs of the parking garage.
- Completion of a new Legion Park Community Building, to include a two-story new building with new roof, air conditioning, acoustical ceiling in the theater area, a warming kitchen and an outdoor seating area.
- Initiated construction of Coral Way Park Expansion to add a larger playground area for the community in the neighborhood!
- Initiated construction of Virginia Key Basin Trail to provide a pleasant granite walking trail around the water.
- Initiated construction of Virginia Key Boat Ramp and Trailer. This project will add one more boat ramp to the City of Miami and Miami Dade County.
- Initiated construction of Antonio Maceo Park New Restrooms. Project to be completed soon!

Highlights

- Initiated construction of the renovation and new building additions of the Badia Senior Center at Flagami Park!
- Initiated construction of West End Park Pool and Enhancements, to include in the neighborhood a new swimming pool, a new pool building and great enhancements to the park!

Capital Planning and Management:

- The Office of Capital Improvements continues to provide virtual and in-person e-Builder Training to external and internal stakeholders. Since the implementation of the new invoice and purchase order processes, the City has processed over 569 invoices with a value of approximately \$33.2M and processed 183 purchase order requests with a value of \$18.8M since April 2023. OCI continues working on increasing e-Builder user adoption and will be finalizing the new Contract Compliance processes by the end of FY 2024.

RPW Fiscal Year 2023-24 - General Accomplishments

RPW completed 39 roadway & drainage improvements projects along with an additional 13 traffic calming devices to improve life-safety. RPW is also extremely excited to have commenced over 20 Sea-Level Rise and Flood prevention projects funded by the Miami Forever Bond (MFB) matched with grant funding from the State and Federal government. These projects will help protect the City of Miami deal with storm surge, sunny day flooding and significant rain events.

- Advertised the Sea-Level Rise and Resilience Brickell Bay Drive Project funded by MFB.
- Initiated Citywide Seawall replacement for street ends along that include the Baywalk where required. MFB and Grant funded. Estimated Project costs \$8,000,000.
- Initiated 12 Neighborhood Stormwater Improvement Projects including six new stormwater pump stations, outfalls and deep injection wells for improved water quality. Estimated Project costs \$224M.
- RPW successfully leveraged MFB to complete funding gaps projects that were advanced in design for roadway reconstruction, sidewalk, ADA improvements along with stormwater drainage and pump station projects such as NW 7 Street Road, NW 17 St from NW 17 Av to NW 37 Ave South Bayshore Lane/Fairview Pump station. Projects cost \$26M.
- Very Poor Roads MFB funding for projects focusing on roadway reconstruction, sidewalk, ADA improvements along with stormwater drainage totaling \$8,068,000
- Completed 354,484 sq ft of sidewalk projects citywide.
- Completed 460,854 sq ft of milling and resurfacing projects citywide.
- Completed construction of an improved 250 linear feet of seawall and a new baywalk behind the First Miami Presbyterian Church in Brickell, adding mobility, connectivity and recreation to our residents by our beautiful Biscayne Bay.
- Completed Phase II of the 25 MPH Speed Limit program, installing over 2,291 citywide signs to reduce the speed limit from 30 MPH to 25 MPH on residential streets.
- Completed multiple traffic calming projects including, construction of three (3) speed tables on Poinciana Avenue in South Coconut Grove.
- Completed construction of Coral Nook traffic circle and open green space with sitting areas

Highlights

- Finalized construction of roadway/drainage improvements at SW 24th St. and SW 22nd Terrace (under poor roads category of Miami Forever Bond (MFB)).

RPW Community Outreach and Engagement: *RPW coordinated events to celebrate the start/completion of projects and advanced the design of capital projects through community feedback received at various community meetings, to include:*

- Held public information meeting for the upcoming South Bayshore Drive pump station project.
- Held Ribbon cutting meeting for the Overtown Greenway at NW 11 Terr. This project is of significant importance since it provides a safe route to school for children accessing Frederick Douglass Elementary school as well as Booker T. Washington Senior High School.
- Intersection improvements Groundbreaking event for intersection in front of Gold Star park.
- Held public information meeting with the Spring Garden Civic Association for the following two projects:
 - Spring Garden Traffic Calming Devices including 2 raised intersections and one speed hump.
 - NW 7 Street Road from NW North River Dr. to South of NW 9 Avenue, which includes roadway reconstruction, drainage improvements and one speed hump.
-
- Marine Stadium Boat Launch and Trailer Parking
- D3 Pedestrian Priority Zones Project (PPZ)
- La Pastorita Neighborhood Roadway Improvements Project
- SW 24th Street and SW 22nd Terrace Roadway Improvements (MFB) Groundbreaking in Nov 2022
- S. Shenandoah Mini Park Roadway Improvements in Summer 2023

Fiscal Year 2024-25 and Beyond

New Appropriations to capital projects in FY 2023-24 total \$39.463 million as follows:

- Enhancements at Fire Rescue Facility
- Upgrades and Enhancements of Fire Rescue Apparatus
- Purchasing General Fire Fighting and EMS Equipment
- Purchase of Two New Boat Engines for Police Boats
- Purchase of a Major Crime Scene Truck
- Purchase of Toughbook Laptops for Police Department
- Expansion of Real Time Crime Center in Allapattah
- Modernization of Police Interview Rooms
- Upgrades of Legacy CCTV Camera System
- Purchase of LPR Equipment for Police Department
- Purchase of Volcanic Bicycles for Police Department

Highlights

- Purchase of Hyundai EDR DLC Kit for Police Department
- Purchase of Portable Emergency Lights and Sirens for Police Department
- Purchase of Motorcycle Equipment for Police Department
- Purchase of Leica Laser Scanner and Accessories for Police Department
- General Government Capital Projects
- Expansion of General Services Administration Building
- Construction at Reverend Edward T. Graham Greenway
- Upgrades of Computers for Building Department
- Enterprise Permitting Solutions
- Replacement of Citywide Fleet Vehicles for Building Department
- Planting of Trees Citywide
- Review of Building Departments Electronic Plans
- Improvements of Urban Core Roadways
- Flagler Street Beautification
- Repairs of Citywide Storm Sewers
- Pavement Resurfacing Citywide
- Upgrades at Miami Marine Stadium Marina
- Improvements and Capital Operations at the MiaMarina
- Emergency Repairs and Replacements at Dinner Key Marina
- Improvements at Museum Park
- Enhancements and Expansions of District 1 Parks
- Enhancements and Expansions of District 2 Parks
- Enhancements and Expansions of District 3 Parks
- Enhancements and Expansions of District 4 Parks
- Enhancements and Expansions of District 5 Parks
- Upgrades at Morningside Shoreline and Kayak Launch
- Enhancements at West End Park Pool
- Phase I and II of Fairlawn Community Park
- Citywide 40/50 Year Recertifications of Parks
- Replacement of A/C Equipment at Citywide Parks
- Replacement of Parks Vehicles and Equipment
- Site and Equipment Improvements at Citywide Parks

OPERATING IMPACT SECTION

- Operating Impact Summary

Page Intentionally Left Blank

Operating Impact of Capital Plan

The City’s capital budget is distinct from its operating budget. However, there is an inter-relationship that exists since projects funded and implemented through the capital budget may directly affect the operating budget to address increases or decreases in costs related to supporting and operating those projects. In short, capital projects may impact ongoing expenses on routine operations, repairs, and maintenance, either positively or negatively.

The potential operating impacts of proposed capital projects are carefully considered as part of the City’s capital planning process. In many cases, the most important component of a capital spending decision is not the initial acquisition and development cost, but rather the cost impact on the operating budget over the life of the capital asset. Projects that represent new or significantly enhanced facilities or technology will impact the operating budget as they are completed and released or transferred back to the pertinent department for operation and maintenance.

Many projects involve the purchase or reconstruction of existing infrastructure to upgrade facilities and equipment to current standards and, as such, do not carry significant operating impacts. Some of these projects, however, require additional operating expenditures for utilities such as water and electricity, or for landscape and lighting maintenance that exceed current consumption levels. New projects, such as park recreation centers and fire-rescue stations, often require the hiring of new personnel, purchase of new furniture and equipment, as well as routine maintenance and payment of increased utility bills.

Each City department works with the Office of Management and Budget to determine the operating impacts of proposed capital projects. Future costs associated with the operation and maintenance of capital assets are estimated and included in the City’s capital and operating budgets.

The *Sources and Estimated Uses by Department* report in the Capital Reports Section lists the estimated operating impact by project.

Capital Fund	Estimated Operating and Maintenance Cost
Disaster Recovery	\$ -
General Government	\$ 587,000
Mass Transit	\$ -
Parks and Recreation	\$ 1,289,000
Public Facilities	\$ 544,000
Public Safety	\$ 93,000
Sanitary Sewers	\$ -
Solid Waste	\$ -
Storm Sewers	\$ 13,000
Streets and Sidewalks	\$ 93,000
Grand Total	\$ 2,619,000
